

Nine Patch Charm

This is a brand new quilt arranged by C Jean Horst that is so exquisite with its hundreds of yards of hand quilting thread – this one has 693 yards of hand quilting with 8-9 stitches per inch – roughly 200,000 stitches!!! Really !! It is exceptionally heavily hand quilted with feathers – large and small, and also a charming and beautiful heavily quilted border design. The white background, even though it is a tiny tone on tone 100% quilter's cotton print, shows up all the stitches and designs so nicely. While being a traditional patchwork pattern, Jean has transformed it into an heirloom quality quilt due to the exceptional yardage of hand quilting displaying feather circles and feather plumes.

The backing is also 100% quilters cotton tone on tone white like used on the top side. There are 8-9 stitches of hand quilting per inch of this quilt. Magnificent.
