

Calla Garden Newest in C Jean Horst's applique designs

Truly elegant and the newest design from C Jean Horst designs. Here is a garden of Calla lilies, surrounded with tulips and 3-d rosebuds as well as bunches of delicious looking grapes. This quilt was designed for a customer who loved the Petal Showcase but asked that I use calla lilies in her design. We love it just as much as our customer did. And so we are please to be making more and offering them as a standard quilt in line. This quilt is sold but there will be more being shown in the months ahead.
