

The Journey – C J Horst Original Design

Another new original C Jean Horst design. The reality of life being pictured as a journey seemed to come together when a friend's husband passed away at an early age with cancer. The watercolor wall quilt – the Journey, was designed at that time. And now we have the full size quilts!! Available in queen and king size in this pattern done on a background of my favored Bargello Wave pattern design. This is a beauty of 24 100% quality cotton batiks used for the background pattern and then more added bright batiks in hand appliqué for the butterflies on the quilt top. It is a spectacular coming together of precise piecing, hand applique, and hand quilting. The hand quilting has 8 exceptional stitches per inch and

notice the theme of butterflies quilted into the quilting design on the teal middle border too. This is certainly an heirloom piece – not your usual quilt.

Quilt ID: hs7951
