

The Journey – C J Horst Original Design

Another new original C Jean Horst design. The reality of life being a journey seemed to come together when a friend's husband passed away at an early age with cancer. The watercolor wall quilt – the Journey, was designed at that time. And now we have the full size quilts!! Available in queen and king size in this pattern done on a background of my favored Bargello Wave pattern design. This is a beauty of 24 100% quality cotton batiks used for the quilt and more bright batiks added to hand appliqué the butterflies onto the quilt top. It is a spectacular coming together of precise piecing, hand applique, and hand quilting. The hand quilting has 9 exceptional stitches per inch and has a theme of butterflies

quilted into the quilting design on the border too. This is certainly an heirloom piece – not your ordinary quilt.

Quilt ID: hs7963
