

## Log Cabin Kaffe Fassett Fabrics GardenDouble/Queen quilt with double/queen Shams

This quilt is a traditional Log Cabin quilt block done with a unique fussy cut centers. It is made entirely from popular designer Kaffe Fassett's line of fabrics - both top and backing of the quilt. The fabrics are $100 \%$ cotton but are softer than any other manufacturer of quilters cottons that we know of. We also enjoyed making matching pillow shams to work along with the log cabin patch quilt.
This colorful quilt will go with a varied number of color
schemes and is bright and creates a carefree look. The white pillow is not included but creates another look if you add more of your own pillows. A note about fussy cut - each square for the center of each block was cut one at a time by centering a clear plexiglass template on the fabric to see through to the flower - thus centering the unique flower in the middle of each block. Gorgeous.

Quilt ID: hs7975
